

GET STARTED WITH 5 GHZ SUPER PACKS & SAVE UP TO 30%

For new and existing Tarana customers, take advantage of this special super packs promotion for significant savings. Available in a **5 GHz** super packs, get almost everything you need to start deploying next-generation fixed wireless access (ngFWA) to reach customers previously not possible with the traditional approach. A true game changer, Tarana’s multipath integration and interference cancellation allow operation in near- and non-line-of-sight conditions, as well as noisy environments. This promotion is valid 4/1/24 to 5/27/24. Orders must be placed by 5/27/24 and shipped by 5/31/24. Other limitations may apply – please contact MBSI WAV for pricing and details.

WHAT’S INCLUDED IN EACH SUPER PACK? MIX & MATCH!

| Super Pack | 5 GHz BNs Included | 5 GHz RNs Included | Price (\$USD) |
|------------|--------------------|--------------------|---------------|
| # 1 | 2 | 48 | \$47,066.51 |
| # 2 | 4 | 96 | \$94,093.75 |
| # 3 | 6 | 144 | \$141,120.99 |
| # 4 | 8 | 192 | \$188,148.23 |

Each pack includes BN pole mounting kits, shielded power cabling, fiber optic cabling, surge protectors, SFP+ transceivers, RN mounting kits, PoE injectors, power cords, SMS three-year access, and G1 speed unlock license upgrades. Certain parts are needed only for configuration, which is reflected in the price.
